One-Day Working Seminars on Probability

Time: June 5th (Monday), 2017

Venue: Seminar Room 638, Institute of Mathematics (NTU Campus)

(I) 10:30-11:10 **Shang-Yuan Shiu** (National Central University)

[Dissipation in parabolic SPDEs](#)

(II) 11:20-12:00 **Li-Cheng Tsai** (Columbia University)

[Dyson's Brownian motion on the full line](#)

Lunch Break

(III) 13:30-14:10 **Lung-Chi Chen** (National Chengchi University)

[Critical two-point of self-avoiding walks in high dimensions](#)

(IV) 14:20-15:00 **Chien-Hao Huang** (National Center for Theoretical Sciences)

[The localization of one-dimensional self-attractive polymers](#)

Tea Break

(V) 15:20-16:00 **Guan-Yu Chen** (National Chiao Tung University)

[Products of random walks on finite groups](#)

Organizer:

Chii-Ruey Hwang (Academia Sinica)

Yuan-Chung Sheu (National Chiao Tung University)
